Conference on the Environment Resumes

BATON ROUGE – The Louisiana Solid Waste Association will once again host the spring environmental conference. The conference is scheduled for March 21-23 at the Cajun Dome Convention Center in Lafayette.

In 2006, because of issues created by the effects of hurricanes Katrina and Rita, the Louisiana Department of Environmental Quality decided that it would no longer sponsor the conference. The conference had been an important part of the DEQ schedule for 26 years.

The event provides information related to the waste industry and its effect on the environment. The conference offers informative sessions, which qualify toward credit for continuing education. The conference also features vendors, from across the gulf coast region as well as other parts of the country that showcase their latest products and services.

For additional information about the conference please visit www.lswa.net or contact Connie Henry at (985) 878-4403.
